

# Still using cash? It's costing you time and, well... money

Did you know that  
**1-10**  
adults in 2019 were  
living a completely  
'cashless' lifestyle?

Payment trends show that people and businesses are increasingly turning to card and contactless payments when paying for goods or services.

Using cash for purchasing goods and paying for special projects is costing you time and money.

A safe must be on site or frequent trips to the bank for withdrawals and deposits must be made.

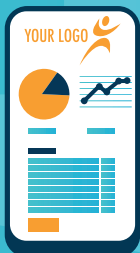

Operating with cash means limited record keeping and are harder to track.

Using cash, means limiting options for purchasing goods online.

## The answer? B4B payments prepaid cards

All cards are contactless and can be used anywhere Mastercard™ is accepted.

Full control of your payment process. Using our flexible card management portal, issue, view, and reload cards online.

Cut expensive processing costs associated with cash.

## Social distancing? Not a problem.

In light of recent events, with the safety and wellbeing of staff and the general public a major concern, the numbers for cashless payment processes have skyrocketed.

A large number of businesses have already converted to 'cashless' during the COVID-19 pandemic.

**Stop individual distribution.**  
We send prepaid cards directly to those who need them.
